nickpopov.com | github.com/nickspopov | linkedin.com/in/nick-popov-engineer

React Native & Full Stack developer with 9 years building fintech, health, and IoT mobile apps. Led teams of up to 10 and shipped 10+ apps to the App Store and Play Market. Specialized in high-performance mobile UIs with complex animations and gestures, native modules (Kotlin, Swift, Objective-C), and cross-platform optimization.

SKILLS

Core	React Native, React, TypeScript, Node.js, GraphQL, Redux, Apollo, React-Query, Expo, Remix.js
Mobile / Native	Swift, SwiftUI, Objective-C, Kotlin, Jetpack Compose, native modules
Backend / Infra	Node.js, Python, Django, Docker, PostgreSQL, Redis, CI/CD, VPS
Leadership	Team leadership (up to 10), mentoring, technical interviewing, client communication, pre-sales, project estimation

EXPERIENCE

Geniusee — Senior Full Stack / React Native Developer 2020 – Present
Software development agency — delivered the client projects below.

Fintech platform (NDA) — Full stack: Node.js, React, React Native 2024 – Present

- Developed critical features (deposit / withdraw, third-party integrations) for a platform processing **\$1B+ over two years**.
- Grew the team from **1 to 8 developers** by building client trust and expanding the engagement.
- Reduced app RAM usage by **40%** through performance optimization.
- Managed releases across mobile (React Native) and web (React SPA, Remix.js), serving **3,000+ daily active users**.

IoT fleet platform (NDA) — Python + React Native 2023 – 2024

- Built a Modbus protocol bridge for IoT car equipment across a fleet of 10 vehicles.
- Developed native Android components with Mapbox integration.
- Maintained and extended features with Django and React Native; ran VPS infrastructure on Docker.

WayWiser — Senior React Native Developer 2022 – 2023

- Improved overall app performance **2x** (up to **3x** on specific screens).
- Migrated the app from Expo to React Native CLI and set up the CI/CD pipeline.
- Led a full UI redesign and integrated third-party services.

MembaMe — Technical Lead 2021 – 2022

- Led a team of two (React Native + backend) on an event-invitation app (weddings, celebrations).
- Built complex custom animations and gesture-driven interactions for a polished UX.
- Participated in business-requirements analysis.

Umine — Team Lead 2021 – 2022

- Led 2–3 React Native developers; built custom native Kotlin modules and complex animations / gestures (drag-and-drop, video player).

Swyft — Team Lead 2021

- Led 2–3 React Native developers; integrated in-app bank purchases via native SDK (Objective-C, Java wrappers).

Maxint — Flutter Developer 2021

- Set up fintech app architecture and Plaid banking integration; released to App Store and Play Market.

Skoove — Senior React Native Developer 2020 – 2021

- Music-learning app (**1M+ installs**); UI redesign, native modules, and stability improvements.

DreamBit — React Native Developer 2018 – 2020

eForce — Cybersport streaming app 2018 – 2020

- Built from scratch (**100k+ installs**), including the video-streaming feature.

Stoovo — Early-stage fintech startup 2019 – 2020

- Built from scratch; shared-transition navigation and bank-service integrations.

EDUCATION

Bachelor's Degree in Marketing
